

VILLA BENCONTENTA PRIVATE POOL
Regulations and information

Depth: min. 1,20 m (3,94 feet) – max. 2,00 m (6,56 feet)
Lenght: 16 m (52,49 feet)
Large: 8 m (26,25 feet)

The swimming pool is not guarded. For yours and your children’s safety, the swimming pool is fenced. There are totally 5 accesses to the pool area (3 through the garden and 2 trough the pool bedroom), you can see them in the attached plan.

- Entrance n° 1: is for mantainance use and it will be kept locked unless workers are doing mantainance in the pool area.
- Entrance n° 2 and n° 5: the keys are kept hanging on a hidden nail in the proximity of the gates out of the reach of children (one copy of the keys is in the house hanging on the keys rack under the stairs).
- Entrance n° 3 and n° 4: these are the doors to the pool bedroom if you have rented it you will be given the keys of entrance n°4, entrance n° 3 is locked from the inside the key is hanging on the door. If you have not rented the pool bedroom the doors will remain closed.

At your arrival in Bencontenta please check that all the entrances to the pool area are locked.

Mr/Mrs.....

Hereby states that he/she has gone through this document.

Mr/Mrs.....

Declares that he/she is responsible for the safety of all of the members of his/her group staying in Bencontenta and for the safety of any outside guest, from.....to....., and therefore discharges the owner and/or the administrator from any responsibility for all kinds of accidents.

- Diving is forbidden.
- Access to the pool for kids under 12 years is allowed only if they are accompanied by an adult.
- It is forbidden to bath when the robot that cleans the pool is working.
- It is forbidden to bath before 8am.
- It is strongly recommended to bath at least 3 hours after meals.
- It is compulsory to take a shower and to bathe one's feet before entering the pool.

The pool water is treated with “**salt water chlorination**” an electrolysis process that uses dissolved salt to transform it into chlorum, fungicides and products for ph balance. All of the treatments are carried out at 6am so it is strongly recommended not to take baths until 8am. The border of the pool is washed with non-noxious cleansers and the bottom is cleaned by an electrical robot which is activated twice a day for three hours, from 6am to 9am and from 9pm to midnight. Please do not remove the robot from the swimming pool and do not switch it off or on. If you cause any damage to the robot it will be charged.

Responsible for water treatment: Francesca Papafava Tel. +39 049 9900054 Cell. +39 335 1274151.

Our guests are kindly asked to close the sun umbrellas in case of bad weather, at night and in case of long absences during the day.
